Subject: RE: 2018-11-30 - wafb - request ST012 EBR Sulfate soln injection start status

As of yesterday afternoon, injection had not started but the mixing has gone better with improvements in breaking up the "caked" material.

The mixing tank had minor leakage at one seam. Repairs are scheduled for Dec. 10-12, so mixing of the next batch will occur after the repairs are complete. Injection of the first batch will proceed from the other tank. I will request an update from Wood.

Bill Hughes will be onsite next Mon.-Wed.

Thanks.

Cathy

Subject: [Non-DoD Source] 2018-11-30 - wafb - request ST012 EBR Sulfate soln injection start status

Can you please let me know sulfate injection status?

Thank you.
